To receive any available updates on matters arising from last meeting:

### **6.1 THE INCREASE IN THE NUMBER OF NIGHT FLIGHTS FROM BRISTOL AIRPORT**

The following response was received from Melanie King of Bristol Airport:

We do appreciate that the night time period is a sensitive time, with low ambient noise levels. As you are aware, we therefore operate a Night Flying Policy, which has been in place for many years. The policy restricts the number of movements that can occur during the night period (23:30 to 06:00) and we ban the noisier aircraft from operating. Flights that operate during the night period are also subject to a quota count. Our noise quota count system is based on the system that has been in use since 1993 at Heathrow, Gatwick and Stansted airports. The quota count itself is related to the noise classification of aircraft as set out in a formal notice published by the Civil Aviation Authority on a regular basis. These Night Flying restrictions were agreed as part of our current planning permissions with North Somerset Council.

Flights during our night period tend to be grouped around the start of the night period, when aircraft are returning to Bristol Airport. They also increase again after 6am, with airlines beginning their first flights of the day.

Whether Compton Dando is overflowed at these times will be down to the runway in use. The runway direction is dictated by weather conditions, with aircraft required to land and take-off in to wind. We usually use our runway east to west, with arriving aircraft over Compton Dando, but occasionally the wind direction will change and we will be departing towards Compton Dando.

In recent weeks, we have had nights where the runway direction has changed half way through the night period and residents to the east of the airport have experienced both the arriving aircraft and then the peak departure period in the early morning. All the flights continue to count towards our night flying limit but this could explain why your area have experienced a particular increase in flights at night.

#### **12. ITEMS FOR ACTION**

#### **13. CORRESPONDENCE FOR ACTION**

**13.1 EMAIL FROM WENDY ROBBINS OF THE PUBLIC RIGHTS OF WAY DEPARTMENT FOR B&NES COUNCIL REGARDING A CONSULTATION ON THE PUBLIC FOOTPATHS BA8/51 AND BA8/52 (PLAN APPENDED)**

#### **Proposed changes to the Rights of Way network in the parish of Compton Dando**

The general effect of the proposal is shown on the appended plan. Public Footpath BA8/52 commencing from a junction with Bathford Hill at point A on the plan continuing in a generally north easterly direction to

a junction with FP BA8/51 at point B and a section of FP BA8/51 commencing from point C continuing in a generally northerly direction via point B to point D would be stopped up. This is shown on the plan by solid red lines.

The new line of FP BA8/52 would commence from a junction with Bathford Hill at point E continuing in a generally northerly direction to point G then turning in a generally north easterly direction to a junction with the new line of FP BA8/51 at point K and the new line of the section of FP BA8/51 would commence from point C and continuing in a generally north westerly direction to a junction with the new line of FP BA8/52 to point K then turning in a generally north easterly direction to point D. This is shown on the plan by solid blue lines.

These changes are proposed in the interests of the landowners as they would take FP BA8/52 away from the landowner's residence and align the legal route of BA8/51 and BA8/52 with routes that are currently walked. The changes would be achieved by way of a diversion order made under section 119 of the Highways Act 1980.

A gate is proposed at point F and kissing gates would be authorised at points H, J and L to prevent the ingress and egress of livestock. No other works are proposed as the new paths are already used by the public and to an acceptable standard.

If you have any comments regarding the above proposals, please ensure that they are received by the Public Rights of Way team no later than **1<sup>st</sup> September 2017**. If, however, you require any additional time or for further information please contact me on 01225 394161.

Compton Dando Parish Council SUPPORT the proposed changes.

### **13.3 LETTER FROM THE LOCAL GOVERNMENT BOUNDARY COMMISSION FOR ENGLAND, NOTIFYING OF AN ELECTORAL REVIEW OF THE WARDING ARRANGEMENTS**

The commission is carrying out a review to deliver electoral equality for voters across B&NES. At present some councillors represent many more, or many fewer electors than their colleagues elsewhere in B&NES. The review aims to correct these imbalances.

For parishes, the review can recommend changes to the electoral arrangements of parish and town councils i.e. the number, names and boundaries of parish wards and the number of parish councillors for each parish ward. However, this is only in circumstances where the parished area is to be divided between wards. Even in these circumstances, the Commission will not normally recommend any changes to the number of councillors to be elected to a parish or town council.

A 10-week consultation commences on 25 July 2017 and ends on 2 October 2017. Proposals are invited for the new warding arrangements. There will then be a further consultation on the draft recommendations. Final recommendations are expected to be published in May 2018.

Interactive maps, which allow you to draw in boundaries, can be viewed at <https://consultation.lgbce.org.uk>.

The link to the press release on the Council's website is [here](#) and local statistics relating to the review can be found [here](#).

In celebration of the launch of the new Tree Charter on 6 November 2017, 800 Legacy Trees will be planted across the UK.

Your council can receive a Legacy Tree by demonstrating its commitment to its local trees. A simple way to do this is by following the links below and becoming a local council Tree Charter Branch.

As a Tree Charter Branch your council will be joining a growing network of local councils helping to shape tree policy in the UK. Becoming a Charter Branch is completely free (as are Tree Charter Legacy Trees) and will in no way effect the autonomy of your council. Your level of involvement is up to you. The main activity you will be invited to get involved with is helping to gather signatures of support for The Tree Charter.

#### **Register your Local Council as a Charter Branch**

(simply add your local council's name and details to the boxes on the right hand side of the webpage)

Find out more about becoming a Charter Branch, by visiting the

**Local Councils: Becoming a Charter Branch blog**

#### **Apply to plant a Legacy Tree**

The Tree Charter is an initiative being developed by more than 70 organisations across the UK. The charter will set out how our local communities and trees can best benefit one another. It will serve as a resource which local councils across the UK can use in support of their efforts to look after the trees in their area.

#### **Find out more about the Tree Charter**

If you have any inquiries or problems, or wish for guidance on how to get your community council involved with the Tree Charter, please contact: [joseph.palasz@nalc.gov.uk](mailto:joseph.palasz@nalc.gov.uk)

### **14 CORRESPONDENCE FOR INFORMATION**

#### **14.1 EMAIL FROM DAVID CATTANACH, NEWS & MEDIA MANAGER FOR B&NES COUNCIL, WITH REGARD TO 20 MPH ROAD REVIEWS**

Bath & N.E. Somerset Council is to await a review by the Department of Transport before considering implementing changes to 20mph zones across in the district.

The decision was made at a meeting of the Communities, Transport and Environment PDS Panel held on 17th July 2017, the Panel considered a report on '20MPH Zones – Review'. After some discussion, the Panel came to the following consensus recommendation:

The Panel RESOLVED to:

- Note the report;
- Accept that more data over a three-year period for all schemes is needed to provide evidence for any future changes to the scheme;
- Note that capital budget provision will be required to implement any future changes;
- Await the outcome of the Department of Transport review and request a report on this to a future panel;
- Continue to consider specific applications for 20 mph schemes especially where these relate to safety around schools;
- Recommend to the Cabinet Member for Transport and Highways that 20mph signage be removed where it is illogical.

Cllr John Bull (Labour, Paulton), Chair of the Panel, said: "Speed limits are something which raise strong feelings for and against and there is evidence on both sides as to their effectiveness. Therefore the Panel advised waiting until the national assessment of 20 miles an hour limits is available but in the meantime prioritising any new schemes outside schools where they are likely to be most successful."

Received and noted.

#### **14.2 EMAIL FROM DONNA VERCOE SENIOR SCRUTINY OFFICER FOR B&NES, FORWARDING THE SCRUTINY REPORT FOR 2017/2017**

#### **14.3 EMAIL FROM THE PCAA WITH A RESPONSE TO QUESTIONS ASKED OF BRISTOL AIRPORT WITH REGARD FUTURE EXPANSION (APPENDED WITH A MAP OF THE AIRPORT)**

It was not possible to discuss the questions because of the poor-quality map. The PCAA will be informed (ACTION CLERK).

#### **14.4 EMAIL FROM JUSTIN REEVE UPDATING ON THE TWO-HEADED MAN ROAD JUNCTION ROAD IMPROVEMENTS**

Following promotion of the proposals for the Two Headed Man junction improvements, including our public event in Marksbury, we have reviewed all of the feedback received.

The proposals generated considerable interest, however very few of the comments received related to the actual specifics of the junction design. We are therefore taking forward the existing design to construction, which is anticipated to start later this month.

We are currently awaiting the final programme from our contractor when we will be able to confirm dates and phase of working. However, a mixture of traffic management will be required to deliver this scheme.

While we will be working off-carriageway as much as possible, there will be a period when three-way temporary lights will be necessary. There will also be approximately three nights of total closure. Motorists will be advised to allow extra time for their journeys during these more disruptive periods.

Once they are available, more details including the dates and duration of working phases will be published for the public on the web page for the project at: [www.bathnes.gov.uk/A39improvements](http://www.bathnes.gov.uk/A39improvements)

Received and noted.
